

RAPHEL JOHNSON

+91 8590276397 github.com/raphelj rapheljohnson.rap123@gmail.com

Professional Summary

Motivated Full-Stack Developer with expertise in MERN stack and modern web technologies. Experienced in building scalable e-commerce applications with secure authentication, state management, and payment integration. Proficient in React.js, Node.js, and RESTful APIs. Strong problem-solving skills with a commitment to delivering user-centric solutions and continuous learning in emerging technologies.

Technical Skills

Programming Languages: JavaScript, Python, C
Frontend: React.js, Next.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Shadcn UI
Backend: Node.js, Express.js, Prisma, Inngest, Clerk
Databases: MongoDB, PostgreSQL, NeonDB
AI/ML: Google Gemini API, Pandas, Scikit-learn, Matplotlib, Seaborn
Tools: Git, GitHub, REST APIs, Postman

Experience

Data Science Intern October 2024 – November 2024
IBM SkillsBuild Remote

- Analyzed water quality datasets across 500+ Indian districts to identify key contaminants and regional patterns.
- Developed Random Forest Classifier model achieving 85%+ accuracy for predicting water quality issues using historical data.
- Created interactive visualizations and custom heatmaps to display temporal trends of contaminants across states.
- Tech Stack:** Python, Pandas, Scikit-learn, Matplotlib, Seaborn

Projects

- JusBuy E-Commerce Platform** | *React.js, Redux Toolkit, Node.js, Express.js, MongoDB, PayPal API*
- Developed a full-stack e-commerce platform using MERN stack with comprehensive product management and secure user authentication.
 - Implemented Redux Toolkit for global state management and RTK Query for efficient API calls.
 - Integrated PayPal payment gateway for secure transactions and order processing with real-time status tracking.
 - Built admin dashboard with complete CRUD operations for products, categories, users, and order management.
 - Implemented review and rating system with star-based feedback and user authentication for verified purchases.
- AI-Powered Career Platform** | *Next.js, Prisma, Inngest, Clerk, NeonDB, Shadcn UI, Google Gemini API*
- Engineered AI-powered full-stack platform using Next.js providing personalized career insights and resume building tools.
 - Leveraged Google Gemini API to analyze user profiles and generate dynamic industry insights including market outlook and skills.
 - Developed resume builder with "Improve with AI" feature providing real-time context-aware content enhancement suggestions.
 - Implemented full-stack architecture with Prisma for data management, Clerk for authentication, and NeonDB for scalability.
 - Integrated Inngest for backend job orchestration and Shadcn UI for responsive professional user interface.

Education

- Bachelor of Technology in Computer Science and Engineering** Expected 2026
Muthoot Institute of Technology and Science (MITS) Ernakulam, Kerala
- Higher Secondary Certificate (XII) - CBSE** 2022
Viswajyothi CMI Public School Ernakulam, Kerala
- Percentage: 94%
- Secondary School Certificate (X) - CBSE** 2020
Viswajyothi CMI Public School Ernakulam, Kerala
- Percentage: 91.2%

Certifications

NPTEL: Programming, Data Structures and Algorithms using Python
Salesforce AI Specialist, Salesforce AI Associate

Achievements & Activities

NASA Space Apps Challenge: Competitive participation in global hackathon focusing on space-related challenges.
Languages: English (Proficient), Malayalam (Native)
